

*The following constitutes a partial listing of community speech and language therapy resources known to be currently available. This is not intended as an endorsement of any specific program or provider. Information regarding fees is available by calling the providers. Providers may offer reduced rates for special circumstances or insurance coverage, so be sure to ask. Some providers are able to offer therapy at reduced rates by outside donations or by working in their home or the child's home. I hope that this list is helpful in locating speech-language intervention for the summer.*
